Instructions for Form FTB 3540

Credit Carryover Summary

General Information

References in these instructions are to the California Revenue and Taxation Code (R&TC).

A Purpose

The Franchise Tax Board created this form to provide credit carryover information for repealed credits that no longer have separate credit forms. Use form FTB 3540 to figure and claim a prior year carryover of one or more of the repealed credits. The repeal dates for all of the listed credits have passed. However, these credits had carryover features. You may claim these credits **only** if carryovers are available from prior years.

Note: You do not need to complete this form if you must file Schedule P (100, 540, 540NR, or 541), Alternative Minimum Tax and Credit Limitations.

Specific Line Instructions

Column (a) – Enter the amount of credit carryover available from prior years. This amount is found on the prior year credit form or statement that you attached to your previous year's tax return. This amount may also be found on the prior year Schedule P, Alternative Minimum Tax and Credit Limitations, under Credit Carryover, column (d).

Column (b) – Enter the amount of credit carryover claimed on your current year tax return. The credit carryover amount you can claim on your tax return may be limited by federal adjusted gross income and by California tentative minimum tax. Refer to the credit instructions in your tax booklet to determine the amount of credit carryover you can claim and for information on claiming the credit carryover on your tax return. See General Information C, Limitations.

C Limitations

The credit carryover cannot reduce the minimum franchise tax (corporations, limited partnerships, limited liability partnerships, limited liability companies and S corporations), the alternative minimum tax (corporations, individuals and fiduciaries), the built-in gains tax (S corporations) or the excess net passive income tax (S corporations).

Exception: The alternative minimum tax may be reduced by the solar energy credit carryover and the commercial solar energy credit carryover. Get Schedule P (100, 540, 540NR, 541), Alternative Minimum Tax and Credit Limitations.

If the available credit carryover for the current year exceeds the current year tax, any unused amount may be carried over to succeeding years. Apply the carryover to the earliest taxable or income year(s) possible. In no event can a credit carryover be carried back and applied against a prior year's tax.
